EDUCATION

Ballari Institute of Technology and Management

B.E. in Computer Science and Engineering (Data Science) — Ballari, India
2025– 2029 | **CGPA:** 9.83

TECHNICAL SKILLS

- **Programming Languages:** Python, C,Java
- **Libraries & Frameworks:** NumPy, Matplotlib, Seaborn, Streamlit
- **Data Science ,AI & ML:** Machine Learning, Deep Learning,Basics of AI
- **Tools & Platforms:** Jupyter Notebook, VS Code, GitHub , Canva , Turbo C++

PROJECTS

Banking Management System

Jan 2026 | Tech:Basics of Python

- Analysis of banking process such as maintaining bank accounts,balance,depositing and withdrawal process.

Automated Whistle Counter in Pressure Cooker

Nov 2025 | Tech: C

- It counts the whistles automatically as code has been embedded into Arduino board, displays the count number in LCD and produces sound through sound buzzer.
- It reduces manual work so instead of standing in front of it and waste time , it is automatic.

Patient Record System

Dec 2025 | Tech: Basics of C

- It maintains patient records in a hospital as it contains information about patient such as name,age,patient id,disease,etc...

- It reduces manual work since it reduces time using book records instead using patient id we can easily extract information.

Smart Campus Complaint Portal

Jun-2026 | Tech:HTML,CSS

- It is simple and easy website portal to maintain a campus efficiently where it is easy to submit your complaints related to institution and track your complaint status easily.

CERTIFICATIONS

- Hackathon-DS Department
- Internship Training in Advance C

ACHIEVEMENTS

- Participation in a DS Department Hackathon
- Participation in a Internship Training in Advance C in College
